

Volume 8.

Number 36.

## Allies Are Still Forging Ahead On West Front

The allies still continue to make gains on the western front. Every day during the past week new territory has been taken. The following is a summary from day to day.

### SUNDAY

Peronne, the railroad center at the bend of the river Somme, taken by the Germans in their offensive of last March, was captured by the forces of Field Marshal Haig. The towns of Bullecourt and Morval were also captured by the British.

The British have reached the suburbs of Lens. Large fires are burning in the region of Lens and Arras. These are regarded as an indication of a further retreat. The British line in the Lys sector now runs as follows: From Zillebeke to Voormezele, to the east of Ypres, to Lindenhoek, to Leperche, to Douille, to the western edge of Lagorquet, to a suburb of Estaires, to Locourt, and then to the old village of Festubert. All the places mentioned are in British hands.

### MONDAY

The Canadians attacked this morning astride the Arras-Cambrai road on a front of five miles and broke through the Doucoteux line. The line on front of two miles. Our troops are reported to be in Drury, also on the western edge of Cagnicourt. Considerable heavy fighting is occurring on the high road between Drury and Etaling. A large number of prisoners have been taken.

The strongly fortified German system of defense, known as the Doucoteux line, on the Scarpe river, was carried on a wide front to-day, in an attack by Canadian and British troops, aided by tanks, according to Field Marshal Haig's communication.

### TUESDAY

The British occupied Lens, Wulverghem, Quent, Throuville, Delignies, Tilly, Hertinout, and others. This represents an advance to a maximum depth of four miles on a 20-mile front this morning.

The villages of Sandemont and Reccourt, more than a mile and a half beyond Drury, the capture of which was announced last night, are reported to have been taken today.

The village of Etaling, two miles north of Drury, fell late yesterday at about the same time as the village of south, were capturing Villers-le-Cagnicourt. These captures were effected after most bitter fighting.

A report from British headquarters says: "If Germans are unable to stand before Doucoteux, Cambrai and St. Quentin they will be forced to stand at any point this side of their frontier."

### WEDNESDAY

Field Marshal Haig's forces this afternoon continued their advance north of the Somme. They captured Le Menil, which lies to the south-east of Le Transloy. This constitutes a further two mile advance on a six mile front since this morning.

South of the Somme the enemy is operating the ground west of Canal du Nord. The British troops are east of Ypres and hold Etaling and Morcourt. The British have been a slight advance in the direction of Buas. Numerous fires have been observed at Buas and Hertinout south-east of Baguoneux, and there are other indications that the enemy's retirement still continues.

In the Lys salient where the Germans are retreating the British advanced today and now hold the western outskirts of Neuve Chapelle. The British have captured Ribicourt St. Vast.

### THURSDAY

English and Welsh troops forced a passage on the Terlinde river and Canal du Nord on a wide front of Molaine. During the early part of the day the enemy held the right bank of the river and can and with artillery and machine gun fire endeavored to arrest our advance at this line. Despite the natural strength of the enemy's position, our troops advanced with great dash and courage and carried the villages of Mannequin and Eliripout. Overcoming the obstacles presented by the canal and

river, they made substantial progress on the river ground to the east.

Further north English and New Zealand divisions have taken Riezcourt and reached the northern outskirts of Havrincourt west, east of the canal line. Other English divisions gained the best break of the canal line opposite Democourt, beating off a counter attack.

English troops entered Morcourt from the north and the fighting continued here among the Hindenburg line defenses.

In the course of our advance further prisoners and material have fallen into our hands, including two or three German tanks used by the enemy in an unsuccessful counter attack on Aug. 31.

On the Lys front also we have made progress at different points.

## Old Redcliff Citizen Dies in Ontario

Word was received in town today that one of our old citizens, who lived in this town, had died suddenly at his home at Etobicoke, Ontario.

Deceased came to Redcliff shortly after the war started and lived here for five years. About a year and a half ago he left for his old home in Ontario where he has a farm. Just such a change as he was completing his mail carrier between the post office and the station. Orval Rice, who was named to succeed him, is in France, and another son is in France.

## Forbidden to Deal Eggs for 30 days

For ignoring the regulation which calls for a reckoning for bad eggs purchased from producers or country dealers, over above an allowance of one per cent, the William Day Company and the Matthews-Blackwell Company, both of Montreal, have been forbidden to buy, sell or otherwise deal in eggs for 30 days. According to the regulations in force since June 1st last, every dealer placing eggs in cold storage is required to forward to the operator of the warehouse a statement in writing certifying that such eggs have been examined and that bad or unclean eggs, have removed. No license of the Canada Food Board is required for sale, or demand payment for bad eggs in excess of an allowed margin of one per cent on the total amount of the transaction. The object of the Canada Food Board was to make the handling of such eggs unprofitable for the dealer, who is now obliged to charge them back against their stock when they are originally purchased. In the case of the two companies under suspension, the dealer has been charged back and made to charge back unsound eggs in this way, although the candling records show percentages running as high as 98 per cent. A firm in Chabot town has been disciplined in the same way for a similar offense.

## Tax Sales Do Not include Buildings

It seems very doubtful whether persons who bought land at the tax sale on which buildings are located will ever be able to establish any right to the buildings by reason of having purchased the land at the sale, says The Edmonton Bulletin.

The matter is continually being brought to the notice of the city by persons who own buildings on land included in the tax sale, it being contended that they have a right in them, as the taxation was upon land only and not buildings. It would appear that before the matter is settled some legal action will arise.

## Agreement With R. R. Shopmen

An agreement has been reached between the Canadian Railway and the representatives of the labor committee, and the representative of the railroad shopmen's organization in regard to the demands made for increased wages. The men will be given the McAdoo award offered to United States railway employees.

Thirty thousand men in railroad shops all over Canada are affected and the increase in wages will be about \$10,000,000 per month. The Canadian railways are lousy by the decision.

# ROLLING MILL TO INSTALL AN OPEN HEARTH FURNACE

Installation to Commence Early Next Month—Will be in Operation by First of Year—Addition Built Last Winter to be Used.

Arrangements are now well under way for the installing of an open hearth furnace in the Rolling Mills. A representative of the company has been in the States for the past few weeks making a deal with a company which makes a specialty of constructing the furnaces, and we understand that an agreement has been made whereby the material necessary can be put together this company will ship the machinery and undertake the work as soon as possible.

The open hearth furnace will be installed in a large addition built to this plant last winter. When this addition was erected it was the intention to proceed with the installing of the new furnace at once but owing to the war great difficulty was experienced in getting the necessary material, as the American government had laid off on embargo on all that class of goods. The letting of the contract for the American firm has, however, commenced. It is expected that work on this new addition will commence about the first of next month and will be completed and ready for operation within sixty days. This will mean that if nothing interferes with present plans the new open hearth furnace will be going full swing by the first of the year.

## Will Proceed With Irrigation Work

One of the important resolutions adopted by the Western Canadian Irrigation Association at its convention in July urged the Dominion Government to carry out as early surveys and investigations as to provide information as to the possibility and the value of carrying irrigation water to as great a number of farmers as possible in the district that may be supplied from the proposed diversion of the Oldman river.

That these investigations will be proceeded with is the statement just issued by E. F. Drake, superintendent of irrigation, Ottawa. Mr. Drake advises that it has been decided to proceed with the preliminary field investigations and office study in connection with this matter for the purpose of determining the feasibility and the approximate cost of extending this irrigation project.

The outstanding success of irrigation in southern Alberta this year, in a season when other crops have suffered for lack of moisture, has emphasized its value and the development of the area referred to will extend the advantages of irrigation to another considerable section of agricultural land in southern Alberta.

## Canadians Advance 17 Miles in Five Days

It is exactly a month since the great trek began. It is just over three weeks since the initial blow was struck East of Amiens. It is five days since the Canadian force so successfully returned to its stamping and took part in the offensive of the last day of Arras. Within that period it has penetrated no less than 17 miles into the heart of the German defense, has shattered a series of his best divisions, and has taken off his immense spoils in the way of prisoners and material of war. And the Canadian force is still going strong. It goes forward singing, and suffers its losses insignificantly.

United States war expenditure in August broke all monthly records by more than \$100,000,000, amounting to \$17,140,000 per cent. On Tuesday, later reports may make this by \$50,000,000.

## School Opens With Good Attendance

School opened here last Tuesday for the fall and winter term, and judging from the attendance on the opening day it is looking off in the best of the possibilities of the term. On the contrary there was evidence of a considerable increase. On the first day there were about 300 children enrolled and more have been coming in almost every day since. As a result the eight rooms in the school and the two additional rooms in Reids hall are now fairly well filled.

The board has had the rooms used in Reids hall greatly improved by putting in additional windows and ventilators, thus making them much more comfortable and convenient. A splash of fire escape has also been installed and the surroundings generally brightened up.

If there is the usual influx of families to terms for the winter—and there is no doubt there will be—it is quite probable that the board will have to make provision for additional accommodation.

## Band Concert For Saturday Night

The following will be the program for the band concert next Saturday evening:

- PROGRAM.  
March....."Blaze of Honor"  
Grand Selection, with the American Army.  
One Step, "I Don't Want to Get Well"  
Selection....."Bright and Gay"  
Ballad....."At Sunset"  
Musician's Sutherland.  
Patriotic Song, "Pack Up Your Troubles in Your Old Kit Bag"  
Overture....."The Golden Days"  
Waltz....."Alone"  
March....."The Crooked One"  
God Save the King.

## Germany Now Grasps the Situation

Germany's realization of what the allied victories in France and Flanders mean to the German people. An official dispatch Tuesday quoted the following from the Cologne Gazette:

"The struggle going on in the south front becomes every day greater and more formidable. The greatest German offensive cannot be compared to the relative calm reigning in some sections deuce us. Permissible in the light of past history, the German troops in front of us, or are they designed for fresh raids ready to attack on the first opportunity."

It now seems conceded that it does not understand Pock's strategy and adds: "Our staff must take the necessary dispositions to meet any painful reverses."

Other dispatches comment upon the evolution of the press in neutral countries since the allies took the offensive. As an example the German Swiss paper, the New Zurich Gazette, is quoted as paying a fine tribute to Marshal Pock's military genius, saying he is not only a theorist of deep knowledge, but also "a leader wonderfully able to get his methods used on the battlefield."

From the Basle National Gazette it is taken:

"The German morale will be tremendously shaken by the allied countries. The belief in Hindenburg and Ludendorff animated the whole German policy. It was the secret of its powers. They have been defeated. The Germans have for generations been brought up with the idea that they are the strongest and this belief formed the basis of their conception of the universe. If they suddenly find more than 25 per cent of the average of the floor that supports them give way."

## Prisoners Taken by Allies Still Growing

The allied forces on the western front have taken a total of 125,000 prisoners since July 18th, it was announced in an official statement. In the most recent period 2,650 guns, 1,734 machine guns and 15,783 machine guns were captured.

On the French front 75,000 prisoners and 100 guns had been captured by the French since July 18th, it was also announced.

## Man in Court Claimed He Could Stop the War

A police court case which developed into a most interesting case came up before Magistrates Henderson and Hatcher this morning when Andrew Staples appeared before them charged with not having the necessary papers under the military service act.

Staples claimed he was a Canadian born citizen and when asked why he had not registered he said he thought he could do that any time and had come to Redcliff for that purpose. In the course of further examination the witness appeared to be a bit eccentric on the war question. He was of the opinion that if he could get to Quebec or to Rome he could stop the war in a short order. All he needed, he claimed, was to be ordained as a priest, then he would get an audience with King George, when he would speak the magic words which would stage the present truce and trouble into a state of tranquility and peace.

As both magistrates have long since passed the fairy tale stage the claims of the prisoner made very little impression upon them as outlined in his plea. He was ordered to be kept paying his transportation to Rome they taxed him \$10.00 and costs.

## League Cautious Meet With Success

The collectors for the cemetery apportioned by the Civic Improvement League at its last meeting, have been busy the past few days canvassing the town for donations to enable them to proceed with the work as outlined in their last issue. The result of the canvass will not be known till the meeting of the league next Wednesday but as all the canvassers report encouraging and satisfactory results there is little doubt that the ladies will be able to proceed with the work which they have in view.

## L.W.W.'s Throw Bomb in Chicago

Four persons were killed and more than seventy-five others injured by the explosion of a bomb in a crowded entrance to the Federal building at Chicago yesterday afternoon. The explosion, which not only wrecked the entrance to the building, but shattered every window in the first floor of two buildings across the street, was attributed to the L.W.W. by P. J. Barry, in charge of the local offices of the department of justice.

Riots on two headquarters of the L.W.W. within 15 minutes after the explosion resulted in the arrest of nine men.

## \$2.20 a Bushel For U.S. Wheat

By proclamation issued Monday President Will set price \$2.20 a bushel for the wheat produced in the United States for the government for the 1919 wheat crop.

If the president had accepted the advisory committee's suggested price of \$2.46 a bushel, wheat would have been on a basis minimum of \$2.40, and the difference would have been made in the various primary markets would have been plus this figure, making it possible at New York \$2.59 1/2.

A disinterested committee, the president stated will be appointed next spring to see whether the increased cost of farm labor and supplies would justify an increase above that price.

Despite labor opposition, the New Mexico wheat harvest has given rise to a leading to anti-soldier bill which disqualifies persons convicted of crimes from voting in state or municipal elections. The bill has been introduced in parliament or municipal councils from four to seven years.

Advertising Rates: Furnished on Application.

Issued on Thursday of each week at Redcliff, Alberta.

THURSDAY, SEPT. 5, 1918.

## ABOUT EGGS.

Within the past few weeks many fines and close up orders have been inflicted as penalties for violation of the Canada Food Board's regulations in various parts of Canada. Among these were several cold storage plants which had been dumping bad eggs onto the market. These eggs ultimately reached the consumers who, apparently, had no opportunity for redress.

It is manifestly nothing but fair that the public should not be called upon to pay for bad eggs. If a dealer sells the consumer bad eggs and pays for them the least trouble for him would be to say nothing about it after finding the fact out by candling, but pass the eggs on into the channels of trade, where the consumer would eventually pay for the loss. Everywhere, the consumer is doubly entitled to fresh eggs bought in good faith in the regular way. Producers should be careful of the stock they sell and dealers should be watchful of the stock they buy.

## A GOOD CHANGE.

Whether or not the change in the head of the Department of Education at Edmonton is responsible for, the several alterations in the school program announced lately, we are not yet in a position to say. However the changes are very much to the point and will be favorably received to all interested in this line of work.

One change makes provision for oral examinations in French. If the teaching and learning of French in our schools is to be of any practical value to the pupils it can only become such when the pupils know how to speak the language and make themselves understood as well as understanding others. It is a well known fact that the present system, while pupils may be able to pass examinations in French by simply translating a few passages, yet not one per cent of them would be able to say "good morning" in French so that they could be understood.

As a young man or lady who can talk French and English has a tremendous advantage in this country this change will be a good one if carried far enough. Another change which is a good one is the re-establishing of arithmetic in the higher grades. This subject has not been taught in any grade higher than nine for some time. Probably that is the reason so many school graduates experience such difficulty in adding up a column of figures or take so long to figure out how much a dozen herring would cost if a herring and a half cost a penny and a half.

## RURAL LIFE PROBLEMS.

Conservation says: "Get together" is a useful and worthy motto for the farmers of Canada. Many of the disadvantages that have handicapped rural progress in the past have been the result largely of a lack of co-operation among farmers themselves. Local suspicions and jealousies made mutual trust, the keynote of all co-operative effort impossible. Happily, there are now many agencies at work that are each accomplishing something in changing these conditions. Among these, the Rural Community Life Institutes in Ontario give promise of being of great service. These are really extension work of the Department of Rural Sociology of the Ontario Agricultural College. A series of conferences is held at strategic points throughout the province each year at which experts in agricultural work and conditions discuss with rural ministers, teachers, leading farmers and others the methods that experience has shown to be more valuable in bettering rural conditions. The interest shown in these meetings indicates that these community leaders recognize the existence of rural social problems and are anxious to find the wisest solution for them. It will be a great day for Canadian agriculture and for the country generally when farmers will get together for the study of their common problems and, without malice or suspicion, together for the common good. The R. & D. W. A. recently organized in this district is a movement along this line.

## STRIKING BACK.

The sensational breaking of the Drocourt-Queant switch line, following a series of important advances with great captures of men and material, has made an immense impression in London. While too great confidence that success can be maintained is depreciated, and while the expectation is general that the enemy will recover this position, the blow is regarded as one of the worst disasters inflicted upon the Germans during the whole war, and one which must cause their high command the deepest anxiety. The belief is general that the switch line is the main system of their main defence, and that there is nothing so strong behind it. Consequently its loss, if it becomes final, opens the widest possibilities. The London Mail thinks its loss would evolve the execution of the French coil fields and perhaps even of Flanders.

On the whole the outlook on the western front was never more promising than it is at the present time. The great gains in territory and the capture of men and materials during the past few weeks show that the enemy is outgeneralized and outnumbered in almost every field of action. The present situation also shows that Gen. Foch (the proper time comes we will strike back and strike hard."

## TAKE THE LONG VIEW.

"It is more than ever necessary to take the long view," Sir William Goode of the British Ministry of food told the Consumers' Council in reference to food production. "Food production," he said, "must be kept up to the highest possible quantity. Cheap prices today, if it means less food or no food tomorrow, is a fool's benefaction."

A survey of the sugar situation by the International Sugar Commission, including a full review of the balance of the crop on hand and the allies' require-

ments, has shown the necessity for further conservation on the continent. Accordingly the Canada Food Board has asked that Household consumption of sugar in Canada be reduced to a ration of 1 1/4 pounds per person per month for personal use.

Recognition of the Czechoslovak nation by the United States government assures the Czechs of Northern Austria a standard in the league of nations and since it follows similar policy of Great Britain, France and Italy, it may have far-reaching effect on the war situation. In every event, it is expected to produce a new alignment of Germany and Austria-Hungary at the peace table.

In his latest speech in London Lord Robert Cecil, assistant secretary for foreign affairs, gives true voice to the spirit that is destined to win the war for the allies and to keep democracy as one of mankind's boons. "If we are to succeed despite our freedom," said Lord Cecil, "we must be prepared to scrap national prejudice, national sentiment and even, I would say, national interests."

Dealers and others who may be ambitious in regard to this year's crop of potatoes and apples have been warned by the Canada Food Board against speculation. "In negotiations for the purchase or sale of apples, potatoes or other roots, due consideration should be given to the possibility of some action being taken by this Board."

Now that farmerettes and other ladies engaged in war work are adopting more sensible costumes, it is about time for a new song. How would "I Dreamt I Dwell in Overalls" do for a starter?

The Canadian editors who have been to the front as guests of the Imperial government, returned home last week without a casualty. This is only one more proof that the pen is mightier than the sword.

A Swiss reporter, who claims to have seen the Kaiser lately, says his hair is snowy white. If that is the case there is no danger of getting the Kaiser's head mixed up with his heart.

Since the allowance of sugar is now getting down pretty fine it is a good thing the rhubarb season is over.

## Restrictions on

## Bacon Removed

The Canada Food Board has removed temporarily, the restrictions on the consumption of pork, this country having been made possible by the pork production and conservation efforts in Canada and the United States. The order provides that pork, including bacon and any part of the carcass, may be served at any time in public eating places operating under Canada Food Board license.

The removal by the Food Board of the restrictions on the use of pork, as soon as they could safely be withdrawn, may be taken as proof of the desire and intention to relax any or all restrictions as conditions warrant. At the present time other conservation measures must not be relaxed, but it may follow the regulations and advice of the Food Board in full confidence that restrictions will not be retained longer than is absolutely necessary to safeguard the food position of the allies and of ourselves.

## VALUE IN FISH WASTES.

In Liverpool, England, a plant has been installed for the utilization of fish waste, and the fish obtained therefrom find a ready sale at about \$400 per ton. A meal made from the residue and used for feeding live stock and poultry, retails at over \$100 a ton.

Minnesota soldiers in France, as well as in the United States, will be allowed to vote by mail at the November election.

## Manitoba has Good

## Crops This Year

Reliable estimates place the yield of wheat in Manitoba at between 45,000,000 and 50,000,000 bushels. The lower figure is more than two million bushels in excess of last year's crop. The crop is expected to be at least 750,000,000 bushels greater than last year—20,000,000 bushels, as against 68,000,000—while barley should yield at least 30,000,000 bushels or almost 20,000,000 in 1917.

## Spanish Government

## Calls the Hun Bluff

Spain has not only delivered an ultimatum to Germany, but has followed this up by the seizure of the German vessels now interned in Spanish ports. This is a serious matter, and whether or not it leads to war, depends upon Germany. The Spanish have called the bluff of the common enemy.

Spain has less heavily through the hands of the German submarines. August, 1915, and June, 1917, alone 41 vessels, totaling 95,508 tons, were sent to the bottom. In all 20 per cent of the entire Spanish merchant marine has been destroyed and the work is still going on. In order to protect itself from commercial isolation, Spain has been driven into a new and decisive step.

## Demand Reparation

## From Bolsheviki

The British government has sent a telegram to the Bolsheviki government at Moscow demanding reparation and prompt punishment of those culpable in the attack on the Russian embassy at Petrograd on Saturday morning. The British attack was killed. In the event of the failure of the Bolsheviki government to give satisfaction or if there should be, a reparation for the acts of violence, to make the members of the Soviet government individually responsible, and have them treated as outlaws by civilized nations.

Pork is still required overseas in large quantities and the situation does not warrant excessive use in Canada. Russian allied troops operating in Siberia are closely pursuing the enemy forces in the Ussurey river region, according to an allied official statement issued by the Japanese war office.

## MRS. F. G. BURFORD

(Organist of Presbyterian Church).  
Certificates of Trinity College of Music, London.

Desires to announce that she is prepared to accept pupils for Pianoforte instruction and Theory.

SPECIALIST IN TECHNIQUE.  
Pupils prepared for the McGill University music examination last term received first-class honors.  
Terms upon application to Box 108 or at residence on Third street S. E.

## Wanted Farm Lands

In exchange for Redcliff property, consisting of modern up-to-date residence on best street in Redcliff. Some good corner lots, also 50 feet on Broadway. Will trade any or all of these together with some cash, for good farm lands. Apply P. O. Box 1118, Medicine Hat, or Phone 2555, Medicine Hat.

## Insurance

Fire, Mail, Liability, Life

## Houses

For sale or rent, one fully modern, 6 rooms

## Farm Lands For Sale

THE STONER AGENCIES, REDCLIFF

## CAKE WITHOUT SUGAR.

Here is the way to conserve sugar and make a delicious cake at the same time. Take two cups of white corn syrup, one quarter cup shortening, two eggs, three cups of flour, 1 1/2 tablespoons baking powder, one cup of milk, quarter teaspoon of salt, cream the shortening, add the syrup and the eggs and mix well. Add the milk and the baking powder and salt, cream together, then slowly in the mixture and beat. Bake in a moderate oven as a loaf for layer cake, or small round cakes. One quarter of a cup of raisins added to the batter, gives more flavor and sweetness.

## GLUCOSE IS RECOMMENDED.

If you lack sugar for preserving fruit, glucose prevents fermentation of fruit and crystallization of the syrup in jams and jellies which some times occurs on the top. Glucose can be bought in all grocery stores in the form of syrup, put up in cans under different names, or you can buy glucose five pounds at a time and make the syrup at home, adding 10 pounds of sugar and three quarts of water to each five pounds of glucose. After boiling for a few minutes the syrup is ready for preserving purposes.

## ITEMS OF LOCAL INTEREST

Dundell for school supplies. Miss Reid spent last week end in Maple Creek visiting her parents.

R. R. J. Quinlan, of Medicine Hat, was a visitor in town today.

Dundell's 1918 scribbles and school supplies have all sold.

The new town policeman is expected to be on the job at the beginning of next week.

The Messers, Larson, of the Box Springs district, are attending school here this term.

The infant child of Mr. and Mrs. Haggerty of his town died suddenly in the Medicine Hat hospital today.

Messrs. Hector and Dan McFarlane of the Jettier district, spent a few days in town this week visiting friends.

C. T. Hall is now sporting a fine Ford Sedan. It is the first of the kind in town and is being much admired.

Miss Perrins of the town, left Monday for Medicine Hat to enter the general hospital there and go in training for a nurse.

Rev. H. C. B. Gibson, who has been holidaying with friends in Saskatchewan for the past two weeks, returned home last Tuesday.

Miss Ruby Fairbairn, of Carleton Place, spent a few days in town this week visiting her aunt, Mrs. W. J. Fairbairn.

Harvesting in western Canada is now general, and the outlook is much more favorable than reports of a few weeks ago.

Simon Koenig, believed to be a religious fanatic of German descent, committed suicide near Burdette yesterday.

Messrs. T. McKelvie and H. Nelson leave Saturday for the Pacific coast where they will spend a two weeks holiday.

Mrs. Geo. Lemon, secretary of the Bowell auxiliary of the Red Cross, acknowledges the receipt of \$5.00 from Mr. M. Slattery.
